I. SUMMARY AND BACKGROUND

A. PURPOSE AND SUMMARY

Section 1 of H.R. 3796, “Extension of taxes funding Airport and Airway Trust Fund,” as ordered reported by the Committee on Ways and Means on June 7, 2023, extends the expiring excise taxes funding the Airport and Airway Trust Fund, at their current rates, through September 30, 2028.

Section 2 of H.R. 3796 requires the President to designate certain primary, commercial service airports as ports of entry if they are within 30 miles from the international land border of the United

States, and meet the numerical criteria established by U.S. Customs and Border Protection (CBP) for establishing a port of entry, while terminating the application of the user fee requirement for airports that receive this designation.

B. BACKGROUND AND NEED FOR LEGISLATION

The Airport and Airway Trust Fund is the primary source of funding for Federal aviation programs. The taxes that support the trust fund are currently set to expire after September 30, 2023.

Under present law, CBP has discretion whether to designate any airport a port of entry pursuant to 19 U.S.C. § 1644a. In its regulations, CBP has established certain numerical criteria for determining whether to designate an airport as a port of entry. However, even if an airport meets these criteria, the designation decision is up to agency discretion.

U.S. CBP already has discretion to designate any airport a port of entry if it meets these criteria. This section of H.R. 3796 would simply remove discretion and require the designation for any qualifying airports.

C. LEGISLATIVE HISTORY

Background

H.R. 3796 was introduced on June 5, 2023, and was referred to the Committee on Ways and Means.

Committee hearings

On May 9, 2023, the Committee held a “Field Hearing on Trade in America: Securing Supply Chains and Protecting the American Worker—Staten Island.”

On May 25, 2023, the Trade Subcommittee held a “Hearing on Modernizing Customs Policies to Protect American Workers and Secure Supply Chains.”

Committee action

The Committee on Ways and Means marked up H.R. 3796, “To provide for the extension of taxes funding the Airport and Airway Trust Fund and to require the designation of certain airports as ports of entry,” on June 7, 2023, and ordered the bill, as amended, favorably reported (with a quorum being present).

D. COMMITTEE HISTORY

Pursuant to clause 3(c)(6) of rule XIII, the following hearings were used to develop and consider H.R. 3796:

On May 9, 2023, the Committee held a “Field Hearing on Trade in America: Securing Supply Chains and Protecting the American Worker—Staten Island.”

On May 25, 2023, the Trade Subcommittee held a “Hearing on Modernizing Customs Policies to Protect American Workers and Secure Supply Chains.”

II. EXPLANATION OF THE BILL

A. EXTENSION OF TAXES FUNDING AIRPORT AND AIRWAY TRUST FUND (SEC. 1 OF H.R. 3796 AND SECS. 4043, 4081, 4083, 4261, AND 4271 OF THE CODE)

PRESENT LAW

Revenues dedicated to the Airport and Airway Trust Fund

Excise taxes are imposed on amounts paid for commercial air passenger and freight transportation and on fuels used in commercial and noncommercial (i.e., transportation that is not “for hire”) aviation to fund the Airport and Airway Trust Fund.¹ The present-law aviation excise taxes are as follows:

Tax (and Code section)	Tax Rates
a. Domestic air passengers (sec. 4261)	7.5 percent of fare, plus \$4.80 (2023) per domestic flight segment generally ²
b. International air passengers (sec. 4261)	\$21.10 (2023) per arrival or departure ³
c. Amounts paid for right to award free or reduced rate passenger air transportation (sec. 4261).	7.5 percent of amount paid
d. Air cargo (freight) transportation (sec. 4271)	6.25 percent of amount charged for domestic transportation; no tax on international cargo transportation
e. Aviation fuels (sec. 4081): ⁴	
i. Commercial aviation	4.3 cents per gallon
ii. Non-commercial (general) aviation:	
Aviation gasoline	19.3 cents per gallon
Jet fuel	21.8 cents per gallon
f. Surtax on fuel used in fractional ownership program aircraft (sec. 4043).	14.1 cents per gallon

The Airport and Airway Trust Fund excise taxes (except for 4.3 cents per gallon of the taxes on aviation fuels) are scheduled to expire after September 30, 2023. The 4.3-cents-per-gallon fuels tax rate is permanent.

REASONS FOR CHANGE

The Committee notes that the Airport and Airway Trust Fund excise taxes provide crucial revenue for funding the maintenance and operations of U.S. airports. The Committee believes that the extension of these taxes is necessary to keep the country’s airports

¹Air transportation through U.S. airspace that neither lands in nor takes off from a point in the United States (or the 225-mile zone) is exempt from the aviation excise taxes, but the transportation provider is subject to certain “overflight fees” imposed by the FAA pursuant to Congressional authorization. The term “225-mile zone” refers to the portion of Canada and Mexico that is not more than 225 miles from the nearest point in the continental United States. Sec. 4262(c)(2).

²A segment consists of a single takeoff and a single landing which is taxable transportation. The domestic flight segment portion of the tax is adjusted annually for inflation (effective each January 1). Sec. 3.45 of Rev. Proc. 2022 38, 2022 45 I.R.B. 445.

³The international arrival and departure tax rate is adjusted annually for inflation. For a domestic segment that begins or ends in Alaska or Hawaii, a reduced tax per person applies only to departures. For calendar year 2023, that reduced rate is \$10.60 per departure (to/from the mainland United States). *Ibid.*

⁴Kerosene generally is taxed at 24.3 cents per gallon. For kerosene used in aviation, these reduced rates apply when the kerosene is removed directly from the terminal into the fuel tank of an aircraft for use in commercial or noncommercial aviation. Under certain conditions, refueler trucks, tankers, and tank wagons are treated as terminals. There is no tax on kerosene removed directly into the fuel tank of an aircraft for use in foreign trade. In addition, like most other taxable motor fuels, aviation fuels are subject to an additional 0.1 cent-per-gallon excise tax to fund the Leaking Underground Storage Tank Trust Fund. For kerosene removed directly into the fuel tank of an aircraft for a use exempt from tax under section 4041(c) (such as use in an aircraft for the exclusive use of a State or local government), the rate of tax is 0.1 cent per gallon.

and airways safe and secure. Further, the Committee also believes that the extension of these taxes is vital to ensuring America's airports and air infrastructure remain competitive with the rest of the world and supports economic growth for American families, farmers, workers, and small businesses.

EXPLANATION OF PROVISION

The provision extends through September 30, 2028, all of the expiring taxes dedicated to the Airport and Airway Trust Fund.

EFFECTIVE DATE

The provision is effective on the date of enactment.

B. CLARIFICATION OF CRITERIA FOR DESIGNATING CERTAIN PRIMARY, COMMERCIAL AIRPORTS AS PORTS OF ENTRY (SEC. 2 OF H.R. 3796)

PRESENT LAW

Under present law, U.S. CBP has discretion whether to designate any airport a port of entry pursuant to 19 U.S.C. § 1644a. In its regulations, CBP has established certain numerical criteria for determining whether to designate an airport as a port of entry. However, even if an airport meets these criteria, the designation decision is up to agency discretion.

REASONS FOR CHANGE

Users of primary, commercial airports near the U.S. northern or southern land border that have not been designated as ports of entry incur user-fee costs related to services provided by CBP that are not faced by users of similarly situated airports that have received this designation. Such disparate treatment can place these airports and their surrounding communities at a competitive disadvantage.

EXPLANATION OF PROVISION

This provision establishes that primary, commercial service airports within 30 miles of the northern or southern land border that meet numerical criteria set by CBP for establishing ports of entry must be designated as ports of entry while terminating their user-fee designation.

EFFECTIVE DATE

This provision is effective on the date of enactment.

tion with respect to any taxable fuel establishes to the satisfaction of the Secretary that a prior tax was paid (and not credited or refunded) with respect to such taxable fuel, then an amount equal to the tax paid by such person shall be allowed as a refund (without interest) to such person in the same manner as if it were an overpayment of tax imposed by this section.

VII. DISSENTING VIEWS

HOUSE OF REPRESENTATIVES,
COMMITTEE ON WAYS AND MEANS,
Washington, DC, June 7, 2023.

DISSENTING VIEWS ON “TO PROVIDE FOR THE EXTENSION OF TAXES FUNDING THE AIRPORT AND AIRWAY TRUST FUND AND TO REQUIRE THE DESIGNATION OF CERTAIN AIRPORTS AS PORTS OF ENTRY,” H.R. 3796

Democrats agree that the Airport and Airways Trust Fund should continue to be funded and generally support legislation that extends these taxes. However, we are concerned that no hearing was held regarding these taxes and whether there are any appropriate updates to be made as a part of this reauthorization process. The imposition of these taxes is affecting the manner in which air carriers conduct their business, and accordingly we feel it is important to thoroughly examine the tax base to ensure that our airports and airways continue to receive necessary funding from the commercial enterprises that use these facilities.

For instance, had the Committee held hearings on the current state of the AATF taxes, it might have learned that certain low-cost air carriers are pushing the boundaries of the line between “an amount paid for taxable transportation”, and other charges.¹ The Committee could have explored whether the current fuel surcharge for fractional aircraft ownership, which is not indexed for inflation, is providing a competitive advantage for the likes of large fractional ownership operations over smaller charter operations, who pay the 7.5 percent ticket tax (a tax that generally rises with rising costs). The Committee could have examined any number of issues, but it nonetheless neglected to do so.

More broadly, with the increasing proliferation of fees, documented in a recent Wall Street Journal article,² the Committee should have examined whether the AATF taxes accurately captured the cost of travel. By simply rubber-stamping the *status quo*, the Committee is blessing the airlines shifting more of their charges into un-taxed fees, and contributing to the feeling of air passengers being nickled-and-dimed whenever they travel.

Furthermore, the bill designates airports that meet new, unvetted criteria with port of entry status without any justification regarding the need for this legislation. Committee Democrats unanimously opposed H.R. 3796 at the markup because the legisla-

¹ See, e.g., <https://onemileatatime.com/insights/buy-spirit-tickets-airport/>. This blog post details how Spirit Airlines artificially lowers its base ticket prices, and then charging a “passenger usage charge”, upon which the tax is not levied, arguing that this charge is not a mandatory fee because it is not charged when a purchaser drives to the airport to purchase a ticket at the ticket counter.

² The Airline, Hotel and Rental Car Fees That Catch Travelers Off-Guard—WSJ.

tion affects only certain airports in select congressional districts. The bill expands on previous legislation introduced by Rep. Stefanik, the Border Airport Enhancement Act of 2023 (H.R. 2979), which would designate the Plattsburgh International Airport in Plattsburgh, New York and the Valley International Airport in Harlingen, Texas as ports of entry. H.R. 3796 would also benefit Rep. Stefanik, a member of the House Republican leadership and Chair of the House Republican Conference, and perhaps several other Members of Congress, not the American people.

The legislation would terminate user fees at affected airports and take away resources and staff from U.S. Customs and Border Protection (CBP), thereby jeopardizing the important work the agency does to keep America's borders and ports of entry safe. The airports affected by the bill do not meet CBP's existing customs workload criteria for port of entry status. Most of the airports affected by the legislation rely on user fees authorized by Congress to receive CBP services. The legislation, by terminating the application of user fees at these airports would likely leave them without any customs services given CBP's limited, overstretched appropriated resources. The Committee has not had the opportunity to study this legislation fully to assess its potential merits as Chairman Jason Smith introduced H.R. 3796 on June 5, two days prior to the markup.

During the markup, Rep. Pascrell offered an amendment to strike section 2 of H.R. 3796 which includes the provisions related to the designation of certain airports as ports of entry. Committee Democrats unanimously supported the amendment. Unfortunately, the Members of the Majority present at the markup all voted against the amendment.

We hope the Majority will reconsider this legislation and instead consider bipartisan approaches to improving customs services at our nation's airports and ports of entry.

RICHARD E. NEAL,
Ranking Member.

RANKING MEMBER RICHARD E. NEAL, OPENING STATE-
MENT, COMMITTEE ON WAYS AND MEANS MARKUP OF
H.R. 3796,

Wednesday, June 7, 2023.

This hastily thrown-together legislation flies in the face of the long-established practice of bipartisan reauthorization of the AATF taxes. Republicans released the text less than 24 hours ago, giving us no opportunity to provide our perspective. This proposal rubber-stamps three excise taxes without so much as a hearing or any examination of the current practices of these airlines. According to press reports, this legislation would designate two airports as ports of entry with absolutely no rationale or explanation. The Committee hasn't studied these issues nor held a hearing on this legislation, which is strongly opposed by U.S. Customs and Border Protection.

This is hardly the sort of meaningful policy discussion one would expect from the Committee charged with funding the operation of our airways. There are any number of issues the Committee could have examined: the increasing proliferation of fees, the current state of AATF taxes, and the rising costs air carriers are levying onto consumers. Unfortunately, Republicans neglected to—rubberstamping airlines' current practices and telling American consumers who they stand with: corporations.

Thank you, and I yield back.
